## Community Survey

**Help shape the future of Shawano County!** The Land Conservation Department (LCD) and our Advisory Committee are in the process of drafting our ten-year (2026-2036) Land and Water Resource Management Plan and we would like your perspective. Past county, state and federal staff have tackled many issues facing the county and have made great strides in addressing many conservation issues. To continue improvement, we need to prioritize efforts, address new problems and set up achievable outcomes.

**With your input,** we can assess your concerns and observations to help guide discussions and initiatives to focus work being done on the landscape to improve and protect our **soil and water resources**. It is extremely valuable for us to understand what is of concern to you and other residents of Shawano County.

Below is a QR code where you will find a series of questions that we are asking you to prioritize. There is also a link on our website at [www.co.shawano.wi.us](http://www.co.shawano.wi.us) on the Land Conservation Department page. Please take a moment to **share what matters most to you**. Your feedback will assist us with the direction of future programs and activities.

**Thank you** for your time and continued efforts to conserve, maintain, protect and improve the natural resources and environment of Shawano County.
